

# SCABS Summer IPA 2014

## 5.5 Gallon Base

12 lbs of 2 row pale malt.

.5 lb of 20L Crystal.

.5 lb of Wheat.

80 IBU Target

Any Water Profile allowed.

Safale US-05 Yeast.

Single Hop per Brewer as much or as little hop can be used as long as an IBU of 80 is achieved.

Recipe can be scaled to match whatever batch size you desire.

Beer will be brought to the Summer Party for Club tasting. Notes on your beer are highly recommended so everyone can compare.
